Minden May Festival Slated For Long Week End Here

The Minden May Festival Committee have once again been busy making plans and setting the stage for another welcome back weekend for the summer residents and visitors to our area.

Like last year the May Festival will be held on the long holiday weekend, May 20, 21, 22. There is no charge at any of the events sponsored, by the committee with plenty of action for young and old alike.

Such attractions will be the very popular King and Queen Contest for those ten years and under, this event will be held on the river bank opposite the Minden Post Office. The Rotary Club of Minden will have their games of chance set up on main street, for those who like to try their luck. For the gun enthusiasts there will be a shooting match at Minden Rod and Gun Club, just out of Minden on Highway 35.

A big favourite last year was the pan cake eating contest, this will be held once again on the Bank of Commerce lawn. The Chuck Wagon of course will be here once again, serving pan-cakes and Haliburton Maple Syrup. Along with these, will be horseshoe pitching tournaments,

and of course the Lake Boshkung Skiers will stage a water ski show at Mattabanick Inn.

The above mentioned events are just a few of the many attractions which one can expect on May Festival Week End here in Minden.

JOHN EAKINS ACCLAIMED LIBERAL PROVINCIAL STANDARD BEARER

"Victoria and Haliburton have been called the forgotten Counties, I believe there is a great deal of truth in this" said Lindsay Mayor John Eakins, in accepting the nomination as Liberal candidate to represent Victoria and Haliburton Counties at the next provincial election, at the Liberal Association convention in Lindsay Saturday, May 6th.

Mayor Eakins was unopposed Saturday at the Liberal nomination meeting. His nomination was moved by Charles McInnes of Fenelon Falls and seconded by Mrs. Stanley Murray of Woodville. He said he made his decision to allow his name to stand as a result of much soul searching and because he was concerned for the future of the people of Victoria and Haliburton Counties.

In connection with the industrial picture, Mr. Eakins pointed out that the metro area attracts 60 per cent of the new industry coming to Ontario leaving 388 industrial commissions to fight over the balance. "I cannot see why Fenelon Falls, Bobcaygeon or Haliburton should not share in the good things of life."

DR. FRED GRIFFITHS HEADS BUSINESSMENS ASSOCIATION

At a general meeting of the Minden Businessmens Association, held in the Municipal Building on Wednesday, May 3rd, Dr. Fred Griffiths was elected the new President.

The meeting was chaired by Mr. Don Berry, who did an excellent job. After the president was elected, Dr. Griffiths took the chair for the balance of the meeting.

Many projects were discussed, such as advertising for the community and district, store hours were also mentioned, with Mr. Ken Currie appointed to find out from the merchants what hours they were in favour of. The parking problem was discussed, along with the poorly kept alleyways between some of the stores.

Dr. Griffiths said in taking over the new position, that he hoped to get all the businessmens support, and that the association could get out of low gear, and make some forward strides.

BY-LAW OFFICER, MEDICAL OFFICER OF HEALTH MEAN BUSINESS - CRACK DOWN

One business here in Minden was closed down this week due to poor sewerage disposal, after being warned several times. Dr. Fred Griffiths Medical Officer of Health, and Mr. Art Young By-Law Enforcement Officer took action. The sewerage problem has since been corrected and the business is now open once more.

Several other warnings have been issued by these officers and it is hoped that the businessmen will cooperate, and prevent any further action, as for closing any establishments.

Mr. Art Young would like to see the alley ways between some of

the stores have a fence facing main street, to prevent paper and garbage from cluttering up in these areas, he says however, no one seems to be too interested to take this kind of action.

He went on to say, "we are only doing our job, and it is the taxpayers who are paying our way, we first warn any offenders, and then if no action is taken on their behalf, we have to take steps to see that health restrictions are kept."

Both officials told the Progress that they mean business, and will take what steps are necessary to enforce the regulations.

DON CROWE NEW PRESIDENT OF KINSMEN CLUB

The Kinsmen Club of Minden held their election of officers, at their meeting on Wednesday, May 3rd, at the Wagon Wheel Motel.

After a fine Chinese meal served buffet style the following slate of officers were elected to the 1967-68 season.

President Don Crowe, Vice-President Ken Bagshaw, Secretary Glenn Keller, Treasurer Les Northey, Registrar Jim Burke. Directors elected to office were Joe Pea-

cock, Andy Mackenzie and Spike Moxam. Bulletin Editor, Jack House.

The Centennial Sports Day will be held in Minden on August 15th, and the Kinsmen ask for a good turn out to make the event the biggest success yet.

The Kinsmen report that last months Marathon Draw winners were, for the \$100 Mr. Harry Austin of Kinmount. The \$50 second prize was won by Mr. Leigh Austin of Minden.

Mayor John Eakins of Lindsay was unanimously accepted as the Provincial Liberal candidate at the Victoria-Haliburton nomination convention. Pictured with Mr. Eakins is Douglas Wright of Fenelon Falls, vice-president (left).

Here and There

with
FENWICK FINCH

Minden is in the news again. This time in connection with the Mrs. Chatelaine Contest. This contest run by the Chatelaine Magazine chose its winner from the Province of Quebec. Amongst the runner's-up, one to a Province, is Lorna Hicks of Minden — she represented Ontario.

Chatelaine had this to say for Mrs. Hicks. "Lorna Hicks, of Minden, although she has five children, she wins countless prizes at Fairs for crafts, sewing and cooking. Teaches Sunday School, heads bowling team."

Congratulations to you.

* * * *

The correspondent from Somerville will be pleased to know that the alleys between Minden's main street and the Municipal parking lot are in the process of being cleaned up.

* * * *

The general meeting of the Business Men's Association was held last Wednesday night. Unless there is more interest shown by the local business men this association, won't get off the ground. An organization of this nature is needed in the community — but it needs the support of everyone.

* * * *

Minden has been singularly honored again — Jack Austin's service station has been chosen the "information centre" for Expo 67. This means that any and all information about Expo is available at Jack's.

Last week at a seminar in Barrie Jack was given the information that the Centennial Caravan will be on display in Minden August 23rd. This should be well worth seeing.

Between the Esso and Chatelaine, Minden is getting quite a bit of good publicity.

* * * *

It's good to hear that the various radio stations are stepping into the various "folk singers" who are sneaking in the odd raunchy words — and it's about time — their singing is usually enough to grate on your nerves without having to listen to some of the thinly-veiled, L.S.D. trips and sex.

Let's hope they soon clean them up.

* * * *

Maybe this bothers you as well as it does me. Article after article we read in the papers and magazines glorifying the criminal. I think the time has come to send the general public to a "head shrinker" and find out what gives. Take for instance — Robert Speck is on trial for cold-blooded murdering eight nurses. While waiting for his trial and during it — he has been copying drawings from comic books — they are ill-drawn and crude. An expert has looked at them and said they show that Speck, underneath, is a good clean-living uncomplicated boy and has a well-balanced outlook on life. This statement from a medical expert is enough to make the average man want to throw up. The payoff on the whole deal is that these drawings have been placed on sale and carry a price tag of from two to three thousand dollars. The people who buy them would probably blanch if someone asked them to donate that much money for a worthy cause.

Next week we'll look at a couple more cases.

* * * *

Until next week — remember — "Pretty soon all the drive-in theatres will be opening and people will quit watching movies again.

Fenwick

RECORD HIGH YEAR IN APPRENTICESHIP REGISTRATIONS

The Ontario Department of Labour has a record high of 15,047 active apprentices registered under training contracts, it was announced to-day by the Honourable Dalton Bales, Minister.

The statistics show an increase of 2,593 active apprentices since March 31st., 1966 and 5,868 above March 31st, 1964.

During the past year the Department registered 7,000 new apprentices, a 40 per cent increase over the previous year.

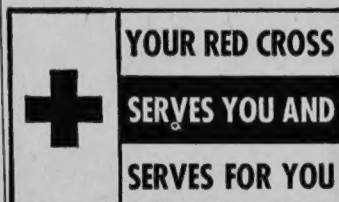

The 1966-67 figures include 12,407 apprentices registered in trades with regulations and 2,640 in trades without. The rapid growth of apprenticeship training is revealed by a comparison of Department statistics which show that from 1928, when apprenticeship was started in the Province until March 31st 1967, a total of 53,751 apprentices have been registered in trades having regulations.

The largest trade is that of motor Vehicle Repairer with 5,132 active apprentices. In the building trades, the Department reports that there are 2,509 active apprentices in the Electrical trade.

The most significant increase in the number of active apprentices in a single trade was reported in the trade of Chef, with a current total of 209, compared with 126 on March 31st, 1966.

Mr. Bales attributes the growth in apprenticeship figures to several factors, including: the increased participation of both management and labour in apprenticeship; the Department's advertising and promotion program; the greater financial and technical assistance devoted to apprenticeship by the Department; revised regulations concerning trades training and compulsory certification; and new courses being established by the Department and the Provincial Institute of Trades.

Also responsible for the boost in registration figures were recent innovations in the program. The Apprenticeship allowance was increased in January of this year to double the living allowance the apprentice receives while he attends a Provincial Institute of Trades, and assessment tests were made available in September 1966 to Apprenticeship candidates who have not attained the Grade X standing required by law.

Thank You

We take this opportunity to thank all our many friends and customers who have given us their patronage over the many years we have operated our Grocery Store in Carnarvon.

We are pleased to announce that Mr. and Mrs. D. Elliott have purchased our business and will continue to serve our many customers.

COMMUNISTS AT WORK

How many people know, that the communist party is widely operated here in Canada? Some might, and others have probably never given it much thought.

At Rotary, on Monday evening we had a very interesting speaker in Miss Marjorie Lamb, from the "Alert Service", which again, is probably not too well known in this district. However in short the Alert Service was started in 1950 upon the request of Canadians, for information on Communist above ground activity in Canada. Since then, it has become nationally and internationally recognized as a source of authentic, factual information centre on this subject. It works as a counter attack on Communist aggression.

Miss Lamb explained many facts about the three Communists subversive political networks operating in Canada today. She stated that they work on younger individuals from the ages of 15 to 25, and have established quite a foot hold in our universities.

Miss Lamb explained, "They share adherence to the doctrine of Marxism-Leninism with its 'revolutionary imperative' and its highly organized methods of training and operation. They often combine on short-term issues when their interests parallel and they are doing this in Canada today on a variety of issues. All three are subversive because they advocate the overthrow of our system of government and the right to use force to do so if necessary is implicit in the doctrine to which they all subscribe. They all follow directives from outside our borders."

It is Miss Lamb's belief that we as Canadians must keep on the Alert, and work, without rest to prevent the Communists from taking a bigger foot hold than they already have. "The responsibility is yours and mine," she said, and went on to say, "and that of every responsible Canadian by virtue of our adherence to the open society. The open society permits Communists in our country to operate freely in the realm of ideas. Honest discussion of ideas is in our best tradition. The problem is that, in this case, we are dealing in actual fact with a subversive apparatus intent on persuading us, often in a deceptive manner, to accept its ideas. Communists insist that their philosophy, theory and practice cannot be separated. While their philosophy and theory may be in the realm of ideas, their practice is action along specified lines in an organized manner, and the techniques prescribed as an integral part of Marxist-Leninist teaching include deception."

Little do we realize, or do much about the invaders who are after our freedom. Politics is like sex, we don't all know enough about it, so we can teach the younger generation in the right manner — this is where we fall short of our responsibility — and this is where the communists have taken over — at the younger level.

It would pay us to stay "Alert" and learn something about our freedom, and how to keep it.

YON TOON O MINE CURLING HISTORY

The Scots of Drumcraigie (now Fergus, Ont.) all played the game of Channel Stones, at home before they settled in Canada. And, in the early 1830's they curled here with nicely turned bird's eye maple blocks.

Later they played with braw stones from Kilmarnock, black, blue, grey and mottled.

This club was composed of scots from both Kirks, the Auld and the Free. Every year a specially important game was played by the Club for a barrel o' meal for the poor.

Following the game a dinner was served of the traditional Beef and Greens, with songs music and speeches lasting until well after midnight.

Sir Adam Barclay Drummond President of the upper Canada Legislative Council was the President of this club. Before he was elected to the Legislative Assembly he lived in Drumcraigie. The Laird of Drumcraigie who was responsible for the settling of this village was the first President and it was always referred to as The Pioneer Club of Canada.

The skip of the Old Kirk club after winning the game spoke at the dinner the following is his speech.

"There's no game like curling, and now that I am on my feet and you are all here (Minister and all) I would like to say a word more of the game in general.

We have high authority for it. Ay: the height of authority for it, the warrant of the Scripture itself.

Ay: minister and I'll give ye the chapter for it, and ye know I'm not what you can call flighty with the Word.

Ye know what the preacher says in the book of Ecclesiastes, where he speaks of things to do in time and season.

He says "There is a time to gather stones and cast them away; a time to win and a time to lose; a time to laugh and a time to mourn.

I'll no affront you holding steadfastly that the play of the folks with their stones was really curling as we call it. But it can be argued.

This story appeared in the book Yon Toon o' Mine by Logan Weir

BIG FISH CONTEST
NOW UNDER WAY

Ontario's Big Fish Contest, conducted annually for the past nine years by The Ontario Federation of Anglers and Hunters for the Molson Awards and Cash Prizes, opened on Saturday, April 29th.

Anglers who catch Rainbow, Brook or Lake Trout, Walleye (Pickerel), Northern Pike, Bass or maskinonge on rod and reel and in season during the period April 29th to November 19th, can enter their catch in this contest.

Awards are made for all fish that meet the minimum weight requirements shown on the entry form for each species and the angler is also eligible for a cash award ranging from one hundred to ten dollars. There are fifteen cash awards in each of the eight contest species.

Entry forms must be accompanied by a clear side view photograph of the fish. Scale samples are requested if possible and these are submitted to the Department of Lands and Forest for study. The scale samples submitted over nine years have provided the Department with valuable information on our sport fisheries.

Entry forms are available at convenient locations throughout the province and can also be obtained by writing to The Big Fish Contest, Box 309, Willowdale, Ontario.

3-DAY CONFERENCE
OF O.A.M.R.
HELD IN OTTAWA

A peaceful demonstration took place on Parliament Hill, Ottawa on Friday evening, April 28th.

Over 900 delegates at the 14th annual conference of the Ontario Association for the Mentally Retarded were led by a thirty-piece brass band from the Smith Falls school for the retarded, in a torch-light Parade. The people marched from the nearby Chateau Laurier to the centennial fountain which surrounds the centennial flame. All the coins that are tossed into the fountain will go to the Canadian Association for Retarded Children.

Delegates to the conference had the opportunity of hearing excellent speakers who are well known for their interest in Mental Retardation.

Harry "Red" Foster, the creator of Canada's National Crusade for the Mentally Retarded, was the speaker at the Annual banquet. Hon. M.B. Dymond, M.D. spoke about the Government's blueprint for mental retardation which was introduced in 1965. In the two, year interval since its introduction the blue-print has been transformed into many new facilities services, and support programmes.

SPORTS

WITH BOB BEENEY

I was asked the other day by a minor hockey enthusiast when the trophies would be awarded to the most valuable players in the Minden Minor Hockey Association.

Well the trophies have arrived and all that has to be done is the names of the players engraved on them. The winners have been picked with only one player coming from each of the different classifications. The players eligible are from the Juveniles, Bantams, Pee-Wees, and Squirts. The Mites have never been awarded a trophy, since it would be most difficult in choosing a player from this group.

Each classification except Mites are also allowed to send a player to hockey school.

More than likely the player that is a winner of a Most Valuable Player Trophy will not be picked to go to hockey school.

The MVP trophy goes to the player who the coach and manager think is the most valuable to their team.

The Hockey School award is given to players who are judged by the coach and manager as having the possibility of advancing into a higher calibre of hockey. It is possible that this award might not be presented to each classification this year if it is felt that there are not a first recipient in certain classifications. Usually by this time of the year the Minden Minor Hockey Association has its annual wind up but it has been delayed since the crests that are given to each player have not arrived as of yet.

Each player will also get an Esso hockey record book that was kindly donated by Jack Austin.

Garnet Graham, insurance agent from Fenelon Falls has donated his time to put on a show that will mistify the kids for twenty minutes or so.

As soon as the round-up is organized I'll let everyone know via this column.

The Swimming classes sponsored by the Municipality of Anson, Hindon and Minden in co-operation with the Minden Branch of the Canadian Red Cross Society are being lined up for this summer.

Two assistant instructors are required for the four week period the cause is held. Applications must be sent to Frank Waters, Chairman of the Red Cross Water Safety Committee before May 24th.

What's It All About ?

by REV. JIM

Question — Jesus believed and taught there was a hell.
Is there one?

Answer — The following will serve to answer other
questions and letters previously submitted on this
question.

Jesus did teach that there was a hell. But one thing
we must see in Jesus, (through the Bible and the witness
of others) is the heart and action of God.

The picture I get is God's love outshines his judge-
ment. I can not separate judgement and love. His
judgement always means life not death and hell. This
judgement is not mere correction, but a revelation of
God's love in action. (This incidently has the strange
effect of giving freedom. Freedom to live, to love, and
to act for ourselves.) I find that this judgement and love
is varied from person to person, but the supreme revela-
tion of judgement and love is found in Jesus. Here is a
man in whom the love of God was so strong it forced him
to associate with and die for sinners. God judged him
to death for this, but he also loved him enough to raise
him from the dead.

When I consider the revelation of God's judgement
and love I am forced to believe that God can not rest
until all come to a knowledge of his love in action, thus
I can not believe in an everlasting hell.

Hell is separation from the knowledge of God's love.
I ask therefore can there be a final separation from
God's love, when we realize the great lengths he goes
to, to reveal his love?

The United Church is holding special Sunday School
services at 9:45 a.m. and a special Church service at 11
a.m. The student minister Mr. Lorne Carter will be the
guest speaker at the Sunday School, and Dr. Elias An-
drews, principal of Queens Theological, Kingston will
be the guest speaker at the Church service.

GUILD FORMED HERE IN MINDEN

A meeting of those taking the
weaving course in March was
held at the Library May 1st.
Special guests were Mrs. Rickie
Oldfield, District Representative
and Miss Pauline Fanning Rec-
ording Secretary both from
Peterborough.

The ladies gave details from
the Guild of Ontario Spinners and
Weavers and had many samples
of their craft on display as well
as mentioning that the goods of
their dresses had been made
personally.

Officers elected at this meeting
of Hyland Weavers Guild were
president Mrs. Bert Harrison Sec-
ratary Mrs. Alice Dugan and
Treasurer Mrs. Marjorie Irwin.
This will be added to at the next
meeting.

All enjoyed the lively discus-
sion and explanation of various
problems given by the guests.
Minden ladies present — Mrs.
B. Harrison, Mrs. Dugan, Mrs.
Lyman Cox, Mrs. Fielding Mrs.
Sears Mrs. Jermun.

A RACE FOR JIGGERS?

IT FIGURES!

IT'S CANADA'S

CENNTENIAL YEAR

One thing Sir John A. Macdonald knew he had to do for confederation when he became Canada's first prime minister a century ago was to build a railroad coast to coast.

This he did and soon a second railway followed. And to mark the twin achievement the folks of this resort city, 90 miles northeast of Toronto, are staging a summer-long series of jigger races set in a centennial theme.

It won't be a race as races go, but rather a test of back-busting endurance, with each four-man team attempting to cover a given distance in the shortest possible time.

Sene of this unique contest is an unused three-mile stretch of Canadian National Railway track along the Trent Canal, south of neighboring Lakefield. Each team will cover the three miles, stop for a breather, then board the car of the next arrivals to complete the exhausting return.

The ancient handcars, replaced 25 years ago by speedier motorized ones, weigh over 700 pounds and have a cruising speed of just 25 mph. But by clever timing, their handlers can coax another 10 to 15 mph, and this becomes the name of the game.

When local officials approached CN a year ago, it wasn't certain if even one operable vehicle could be found. An exhaustive search surprisingly located 10, since refurbished and repainted a gleaming yellow.

Contestants are urged to wear period attire to keep it a closed competition, the sponsoring Peterboro Lions, railroad buffs themselves, would like to see it a wide-open affair and will consider applications from anywhere. The man to write is Douglas Anderson, 719 Brown St.,

All told, there are six chances to enter — the weekends of May 20-22, July 1 and 2, Aug. 5-7, Sept. 2-4, Sept. 23 and Oct. 14 and 15. The entry fee is \$2 per person or \$8 a team, and every competition offers \$150, \$100 and \$50 in prizes.

Your handcar, sir, awaits you.

PROVINCIAL FINANCING AID TO MUNICIPALITIES IN WATER-SEWAGE WORKS

Interest among Ontario municipalities in the provision of water supply and sewage treatment facilities on the basis of provincial financing accounted for a major portion of the Ontario Water Resources Commission's expanded program in 1966, it is revealed in the OWRC's 11th annual report.

The report, concerned with the calendar year 1966 and released following its tabling in the Ontario Legislature by Provincial Secretary Robert Welch, states that by the end of the year under review the Commission had entered into negotiations with 97 municipalities with projects actually being developed in 84 of these. The first of these, the Lake Huron Water Supply System—a pipeline project which will bring water from Lake Huron to the City of London and to participating municipalities along the pipeline route—is now nearing completion.

Other highlights of the year's activities included the Commission's industrial waste pollution control program, the Northern Water Resources Survey and the Great Lakes Water Quality Surveys.

The report noted substantial progress had been made during 1966 towards the achievement of industrial waste control objectives.

"This includes not only major industries but secondary industries such as cheese and milk, the slaughterhouses and meat processing, and the food processing industries," the report said.

"The Commission is also working in close co-operation with representatives of the mining industry to ensure that waste control measures are undertaken at all new mining sites and that existing disposal procedures at established mining areas are under close scrutiny."

Work continued during the year on the Northern Water Resources Survey initiated in 1965 to determine the water resources contained in those basins drained by the five main rivers flowing into Hudson Bay and James Bay.

Three vessels were employed on the Great Lakes in 1966 in connection with the Commission's program of water quality surveys.

This work was being carried out as part of a co-ordinated program with the International Joint Commission and American and other Canadian agencies.

It was noted that continued development of Ontario had made it imperative that long-range planning be undertaken with respect to future water supply and sewage treatment needs. For this reason the Commission was proceeding with the development of regional studies.

NATURALISTS ASSOCIATION MEETS IN KITCHENER LAST WEEK END

The Federation of Ontario Naturalists 35th annual meeting was held at Kitchener Ont. last week-end with over 400 members from various parts of Ont. in attendance.

The theme of this years meeting stressed Canada's Centennial and a century of change with reviews of the past hundred years

receiving special attention.

The bussiness session, covering annual reports, financial statements and elections took place in the morning.

The President Mr. D.C. Sadler gave a comprehensive report on the years activities and stressed the importance of a serious attitude by thinking people towards conservation in its various phases. Because it is often promoting something of a visionary nature the association must not allow itself to be pictured as a group of 'Kooks' or of promoting Kooky ideas. Conservation is serious business and must be treated as such he said.

The afternoon session featured a series of interesting talks and papers on Geology, Bird Life, Fish, Animal Life, Forests, Landscapes and finally the part played by the Naturalists over the past 100 years.

The afternoon session concluded with a showing of award winning colour slides covering Zoology, Botony and General Nature subjects.

The days activities wound up with the annual Banquet at the Coronet Motel Saturday night.

Visitors had a wide choice of field trips on Sunday planned and conducted by members of Naturalists Club. Conducted tours to nearby areas included Niska, Rockwood, Puslinch Lake and Bruce Trail.

Readers of the Progress will be interested to know that Jim Woodford the Executive Manager of the Ontario Naturalists is a regular contributor through his weekly column Woods, Waters and Wildlife.

Enquiries regarding the activities and membership in the Federation of Ontario will receive his personal attention.

ROUGH WATER HALTS DRAGGING OF LAKE FOR MISSING MEN

The search for two men who disappeared on Hollow Lake near Dorset nearly two weeks ago was halted today because of rough water.

Provincial Police at Minden

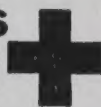

said they hoped to resume the search for 50-year old Rodney Campbell and 30 year-old John Vlasic of Burlington Friday.

The two men disappeared April 22 after they said they were going to their cottage on Dennis-on Island, six miles up the lake. A few days later boat cushions and a gasoline can were found washed up on shore.

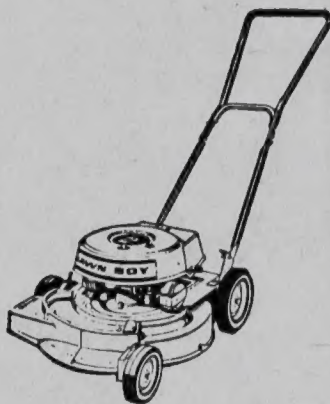

Police and members of the family have been dragging the lake but no trace of the pair has been found.

Police say the lake in the area is about 200 feet deep.
